ACADEMIC DETAILS

YEAR	DEGREE	SPECIALIZATION	COLLEGE	CGPA / %
2026-28	MBA	Business Analytics	BITS Pilani	-
2022-24	B. Tech.	Computer Science and Engineering	VIT AP	8.45
2018	HSC	MPC	Sri Chaitanya Co-Ed Jr College	83.7%
2016	SSC	Science	Sri Chaitanya High School	97.1%

TECHNICAL PROFICIENCY AND CERTIFICATIONS

Technical Proficiency:

Analytics & BI: SQL, Excel, Power BI, Tableau

Languages: Python, R, Java, C++, SQL

ML / AI: PyTorch, TensorFlow, Keras, scikit-learn, Hugging Face Transformers, CNN, Transfer Learning

LLMs & GenAI: Prompt Engineering, Fine-Tuning, RLHF, RAG Pipelines, LangChain, FAISS/Pinecone

Agentic AI: LangGraph, Multi-Agent Orchestration, Tool / Function Calling, MCP

Web & Cloud: Next.js, Node.js, Django REST, API, AWS (EC2, Lambda, RDS, S3), Docker, CI/CD, Git

Certifications: AWS Certified Cloud Practitioner | Oracle Generative AI Professional | Oracle AI Vector Search Professional

PROJECTS

- BITS Research Publication Analytics Dashboard – Teaching Assistantship, BITS Pilani** (Aug 2026 – Present)
 - Architecting a dashboard that replaces a manual weekly Excel process for tracking output across 4 campuses.
 - Integrating Scopus, IRINS, SJR, CiteScore and WoS into campus, department, and faculty level analytics.
 - Tech: Python, Pandas, FastAPI, MySQL, React, Recharts.
- ShelfProof – AI Shopping-Agent Selection Bench (Retail)** (Aug 2026 – Present)
 - Building a bench measuring how listing edits shift which SKU an AI shopping agent picks: 6 variants, 240 trials.
 - Isolated the effect of title, claim specificity, price, review text and spec depth on recommendation share.
 - Surfaced results in a dashboard: win-rate by variant and a prioritised listing-edit priority, separating lift from noise.
 - Tech: Next.js, TypeScript, LLM APIs, PostgreSQL, Recharts, Python.
- Multimodal Disaster Management & Response Triage System** (Jan 2026 – May 2026)
 - Fused satellite imagery, ground photos, social posts and sensor feeds into one triaged incident queue.
 - Built the allocation layer weighing severity, population density and access to sequence which sites teams reach first.
 - Reconciled contradictory image and text-based signals into one severity score, surfacing disagreement.
 - Tech: Python, PyTorch, CNNs, Hugging Face Transformers, Geospatial Data Processing, FastAPI, Docker.
- End-to-End AI Research Platform with LLM Integration - Paper Accepted, ICISML 2026** (May 2025 – Apr 2026)
 - Shipped a research platform on AWS for 100+ concurrent users, replacing manual paper triage with one workflow.
 - Engineered ranked retrieval over 100+ papers, cutting pipeline response time by 30%.
 - Fine-tuned a summarization model with an API fallback for long-context and out-of-domain documents.
 - Tech: Python, PyTorch, BART, FAISS, LangChain, AWS (Lambda, RDS, EC2), Django REST, Celery.

POSITIONS OF RESPONSIBILITIES

- Administrator – Photon Club, VIT-AP University** (Feb 2024 – Apr 2025)
 - Led a cross-functional team of 15+ members to execute technical events and workshops, grew membership by 15%
- Club Supervisor – NextGen Cloud Club, VIT-AP University** (July 2023 – May 2024)
 - Supervised the club core team, delegating responsibilities across verticals and tracking delivery on club initiatives.
 - Mentored junior members on cloud fundamentals and project work, guiding them towards certification and hands-on deployment.

ACHIEVEMENTS

- LeetCode:** Contest rating 2400+(Guardian Badge); Solved 1100+ problems across Data Structures and Algorithms
- CodeChef:** 3 Star rated competitive programmer; 1600+ rating

EXTRA CURRICULARS

- Open Source & GitHub:** Open sourced 130+ public repositories at github.com/sairam3824 covering generative AI, agentic AI, RAG systems, machine learning and full-stack applications; publish project write-ups and demos on a personal portfolio site (saiiii.in).
